That would be great Gary.

Thanks,
David

David,

Will get it back to you by 4/7/16 if not before.

Regards,

Gary Miller
Remedial Project Manager
EPA Region 6 – Superfund Division (6SF-RA)

Subject: San Jacinto Tissue SAP

Gary - Integral's field planning and sampling assume they collect fish, water and sediment all in the same three weeks to keep the project moving forward and to get all of the data as soon as is practical. The deployment for surface water is April 18th, and the first date they would like to be implementing the Tissue SAP is April 23rd. It would be best to have approval from you on the Tissue SAP by April 13th, or so if that is possible for planning purposes.

Can you give us an idea of when you might finish your initial review and provide comments and/or approval on the Tissue SAP?

9768783

Thanks,
David
